

# My Name (feat. Eminem & Nate Dogg)

## Xzibit

This ain't beef man  
I don't know what the fuck to call it  
But no beef  
Whattup X? I float like big spirit in this bitch I'm ghostly  
Rush me, 'cause you ain't gonna live to roast me  
I'd have my motherfuckin' ass kicked by Moby  
If I let some bitch in the can like 'Bis cop over me To do war, and try to bring my crew back  
down  
I'll never stoop, to that level, to do that now  
I got a new cat, this time I'm pullin' two gats out  
With bullets, I finally got somethin' to shoot at now  
Let's see who got they city on lock  
Let's see who got the better aim with the glock  
Let's see who come out on top  
Let's see who really want they name in the streets  
Let's see who wanna die the same time as me and make ends meet Now was I, blessed with a  
gift, or cursed with a curse?  
I follow, hearse after hearse, with after  
And I'll be damned if I let Billy dance Dupri  
Or anybody swing an Axe at my family tree, so now I love it when you niggaz be talkin', sayin'  
my name  
Seems like your mouth is not connected to your brain  
Two zero zero three, and shit, it ain't the same  
Better have a strap my nigga, simple and plain  
Put your nuts on the table, my nigga let's play the game  
Hurt you so long, you be addicted to pain  
I don't wanna hear what you meant, do not explain  
Right before you lay in your coffin, hoe say my name  
Why do you hate me? I came from nothin'  
Blood sweat and tears, you did not create me  
How can you doubt me? You don't know shit about me  
There'd be no West coast without me  
Cut with the bullshit, I struggle for survival  
And now you tryin' to act like my rival? Watch what you say partner, it's a small earth  
Don't play games with your life nigga, it's not worth  
All the pain  
(All the pain)  
All the agony (All the agony)  
All the horror  
(All the horror)  
All the tragedy  
(All the tragedy)

Put your hands up people, it's time to fight now  
 I beat holes in your chest, remain hostile  
 Threaten my life? One day you'll understand  
 They say that pride is the sign of a foolish man  
 So who the fuck, you think you talkin' to? Live and direct in the flesh, I'm right in front of you  
 I love it when you niggaz be talkin', sayin' my name  
 Seems like your mouth is not connected to your brain  
 Two zero zero three, and shit, it ain't the same  
 Better have a strap my nigga, simple and plain  
 Put your nuts on the table, my nigga let's play the game Hurt you so long, you be addicted to  
 pain  
 I don't wanna hear what you meant, do not explain  
 Right before you lay in your coffin, hoe say my name  
 I never really smashed on Jermaine's ass, Dre smashed him  
 Nobody ganged up 'til he came back and jacked him  
 I never really brought it to his ass, I tapped him  
 I coulda been like Treach, boom-bapped and slapped him  
 Purple, for mimickin' him with two rappin' Urkels I coulda snapped, took it past rap and hurt you  
 But I didn't, I kept it on wax and served you  
 I square dance 'cause I'm sick of rappin' circles  
 Around these clowns, steady tryin' to call me out It's like I'm listenin' to motherfuckin' dogs  
 meow  
 You'd probably do better tryin' to come and stomp me out  
 You don't want it with rap, this is what I'm all about, c'mon  
 No gangsta you ain't either (Will)  
 But I know that I spit ether  
 (Not)  
 I shoulda crossed your belly (Lose)  
 Show you I'm not R. Kelly  
 X, pass me the weed, I'ma put my ashes out on his ass  
 For the last time man, "Watch your fuckin' mouth"  
 I love it when you niggaz be talkin', sayin' my name  
 Seems like your mouth is not connected to your brain  
 Two zero zero three, and shit, it ain't the same  
 Better have a strap my nigga, simple and plain  
 Put your nuts on the table, my nigga let's play the game  
 Hurt you so long, you be addicted to pain  
 I don't wanna hear what you meant, do not explain  
 Right before you lay in your coffin, hoe say my name  
 For the last time man  
 I'm through
