

Night Swim

Josef Salvat

Take off your clothes, the water is warm
I wanna take you for a night swim
Believe what you want but there's no one around
Don't play games just get in Oh I spent all my money on this view
So I could be alone and lost with you
Dig your nails into my back
No you can't know what this means
You're used to getting everything you want
But you're the only thing that's come,
My way, for free
Whisper words into my ears, will you
As we dissolve into the breeze
You're taking me back to the start
With you I forget who I've been
I'm clean I know that it's late but wait
Oh wait, I'll drive you home
Just stay a little longer and swim
With me in this roof top pool I know that it's late but wait
Oh wait, I'll drive you home
Just stay a little longer and swim
With me in this roof top pool Happiness saves its bite till the end
It never lasts forever
And sometimes I think I'd be better off
Out of this city all together
Still I spent all my money on this view
Cause none of that shit matters up here with you
Dig your nails into my back
No you can't know what this means
You're used to getting everything you want
But you're the only thing that's come,
My way, for free Whisper words into my ears, will you
As we dissolve into the breeze
You're taking me back to the start
With you I forget who I've been
I'm clean I know that it's late but wait
Oh wait, I'll drive you home
Just stay a little longer and swim
With me in this roof top pool I know that it's late but wait
Oh wait, I'll drive you home
Just stay a little longer and swim
With me in this roof top pool Swim, swim, mmmm

Swim, swim, mhmm
