

Thunder

SHAED

we walked up to the tower
they looked down from above
I never dreamed trouble could be coming from
so few people
where ever you are
let's get loud like thunder
know in your heart
they won't drag us under
they can't blow
every brick we lay will make us
stronger
all we heard was a whisper
when they paid for a beating drum
they never dreamed together
we could make a sound
that would drive them out
where ever you are
let's get loud like thunder
know in your heart
they won't drag us under
they can't blow
every brick we lay will make us
stronger
