

# No Better Feelin'

CL

[Verse 1]

You know that we light up the night  
So nothing is black and white  
'Cause everything i do  
Is always technicolor with you[Pre-Chorus]  
And I know that you got my back  
Don't you know I got you like that  
I could fly when you by my side  
When you by my side[Chorus]  
Ain't no better feelin'  
Ain't no better feelin'  
Yeah you the reason  
I could feel the stars right up in my heart  
Ain't no better feelin'

[Verse 2]

You're the magic in the galaxy  
Bringing out the best in me  
Shining like a diamond sun  
Is what you do for everyone[Pre-Chorus]  
And I know that you got my back  
Don't you know I got you like that  
I could fly when you by my side  
When you by my side[Chorus]  
Ain't no better feelin'  
Ain't no better feelin'  
Yeah you the reason  
I could feel the stars right up in my heart  
Ain't no better feelin'  
Ain't no better feelin'  
Ain't no better feelin'  
Yeah you the reason  
I could feel the stars right up in my heart  
Ain't no better feelin'
