

Neuromancer

EMA

Makin a living off of takin selfies
Is that the way that you want it to be?
When they come and ask you it was
Only the thing that you've done for free I know the way they pray and they blame
It's been the same for ages and ages and ages Ur makin a living off of takin selfies
Is that the way that you want it to be?
It's such a narcissistic baby
It's such a new millennial baby
Is it true?
Is it true? You choose I might lose some fur
But I will survive
My Lucifer
But I will survive
'Cuz I know the way they shame
And they pay
It's been the same for ages Feel just like the Necromancer
Grew itself inside my brain/vein
Big and white and wide and it was
Pictures of ourselves on the frame You know you've got one too
And it knows more than you
About the things that you do
They know more of it than you do
About the things all that you do
They know more of it than you do
They know more about the things you do
They know more of it than you do They know They know.
My Lucifer
But I will survive
I might lose some fur
But I will survive They are AI
They are AI
They are AI
They are AI
They are AI
They are AI...
