

# Pieces

Andrew Belle

You and me  
Got ourselves a problem  
I can see it's better than I solve 'em  
I believe I found a way around it I will leave this better than I found it  
There's too much smoke to see it  
There's too much broke to feel this I love you, I love you And all of your pieces  
There's too much smoke to see it There's too much broke to feel this  
I love you, I love you And all of your pieces  
History's a letter made of scarlet Victories look better when you've called it  
Misery's the moment when I lost you  
It's pleasure in a costume  
It's more than what it cost you  
There's too much smoke to see it  
There's too much broke to feel this  
I love you, I love you  
And all of your pieces  
There's too much smoke to see it  
There's too much broke to feel this  
I love you, I love you  
And all of your pieces  
All of your pieces  
All of your pieces  
All of your pieces  
All of your pieces  
All of your pieces  
All of your pieces  
There's too much smoke to see it  
There's too much broke to feel this  
I love you, I love you  
And all of your pieces  
There's too much smoke to see it  
There's too much broke to feel this  
I love you, I love you  
And all of your pieces
