

# Through the Storm (feat. Menahan Street Band)

Charles Bradley

I thank you  
For helping me through the storm  
I thank you  
For helping me carry on... through the storm It's been a long time coming  
And the world keep turning round... through the storm  
When the world give you love  
It's turn for love  
It fills your soul I thank you  
For helping me through the storm  
I thank you  
For helping me carry on... through the storm  
Day after day  
Week after week  
Month after month  
Turn into a year I thank you  
For helping me through the storm  
I thank you  
For helping me carry on... through the storm I've been through so many changes  
But somehow I hold on  
I don't know where  
Don't know where to go  
But I'mma keep holding on, baby Day after day  
Week after week  
Month after month  
Turn into a year  
I thank you  
I'm gonna keep on holding on  
I, I'm gonna keep on holding on to my chance  
Oh! I thank you  
For helping me through the storm  
I thank you  
For helping me carry on... through the storm  
I thank you  
Oh baby  
I, I really thank you  
Come on darling  
I thank you  
I... thank you  
For your love... that you given me

The whole time
