

Fade Out (feat. Gavin Turek)

Viceroy

I can't sit around and wait
The canvas white, my heart a darker shade
And if you bolt I'm ready
Bass blares heavy
Never doubt yourself [?] We don't have to rush
I want you until the fade out, you until the fade out
It just ain't enough
I want you until the fade out, you until the fade out
Until the fadeout
Until the fadeout
Until the fadeout
Until the fadeout
Hold on tight, we're making waves
And if the lights go black, don't run away
You don't need my pity, fade out with me
Let's get lost, the symphony awaits We don't have to rush
I want you until the fade out, you until the fade out
It just ain't enough
I want you until the fade out, you until the fade out Heart beat for mind, body, then soul
Don't try to define
We can last till we want to
Last till we want to We don't have to rush
I want you until the fade out, you until the fade out
It just ain't enough
I want you until the fade out, you until the fade out
We don't have to rush
I want you until the fade out, you until the fade out
It just ain't enough
I want you until the fade out, you until the fade out
Until the fadeout
Until the fadeout
Until the fadeout
Until the fadeout
