

Work

Lil Jon

Work your body, work those hips
Work your body, work those hips
Work your body, work those hips
Work your body, work those hips

Go work

Go work

Go work

Go work

Yeah ladies, its time to work
If you didnt come here to sweat
You need to leave right now
Work ladies, if you wanna work it out
I need to see your hands up

Lets go, lets go

Left to right, move your body to the base
Left to right, move your body to the base
Up and down, hop your body to the sound
Up and down, hop your body to the sound

Left, right, left, right

Up, down, up, down

Show me what you got, make your body tick tack
Show me what you got, make your body tick tack
Then get to me right, put an arch in your back
Then get to me right, pun an arch in your back

Tick, tack, tick, tack

Arch your back, arch your back

Lets go, lets work

Lets go, lets work

Lets go, lets work

Lets go, lets work

Lets go, lets work

Lets go, lets work

Lets go lets work your body

Work those hips

[illegible]

Work your body, work those hips
Work your body, work those hips
Go work
Go work
Go work
Go work

I know yall not over that acting lot, you tired?
You thought you was working hard
No, youre not working yet
Now its really time to work
Are you ready?

Work your body, work those hips
Work your body, work those hips
Work your body, work those hips
Work your body, work those hips
Go work
Go work
Go work
Go work

Lets go, lets work
Lets go, lets work
Lets go, lets work
Lets go, lets work
Lets go, lets work
Lets go, lets work
