

# Subtle Hustle

## Clutch

Back again with a quickness, pick it up, pick it up  
Master arithmeticness, light it up, light it up  
I got the heat in both feets, snake handler's hands  
Come back with slickness and do it all again My subtle hustle, smooth as mother's butter.  
I let it ride on, I let it ride on Now I'm the media's darling, pick it up, pick it up  
An international phenomenon, light it up, light it up  
I cause eclipses with a wave of the hand  
Let them hang in ellipses and do it all again  
My subtle hustle, smooth as mother's butter  
I let it ride on, I let it ride on I got your number. I steal your thunder  
I got your mother's maiden name tattooed on my arm  
I drive out daemons. Can I hear an Amen?  
Now say my name  
Lay hands on screaming heathens. And do it all again My subtle hustle, smooth as mother's  
butter  
I let it ride on, I let it ride on
