

Good Vibes (feat. Tove Styrke)

ALMA

[Intro: ALMA]

Yeah[Verse 1: ALMA]

Soon I'm on a plane

Doing the same, same shit that I always do

You be handsome, but I finna go talk

Now it's just me and you

Me and you[Pre-Chorus 1: ALMA]

So skip all the screaming and shouting

Let go of the blaming and crying

I don't wanna waste time on fighting

Now, I know that it's probably crazy

But I need you to call me your baby

Even if you have to fake it

[Chorus 1: ALMA]

Just tell me your sweet lies, sweet lies

And then look at my sad eyes, sad eyes

Let's pretend this one last time

Before we go and kill all the good vibes[Verse 2: Tove Styrke]

2 AM cab rides

Hotels and strobe lights

Falling asleep alone

You have that day job, hey, but it pays off

Can't stand that I'm not home

I'm not home[Pre-Chorus 2: Tove Styrke]

Sick of the screaming and shouting

Let go of the blaming and crying

I don't wanna waste time on fighting, no

Yeah, I know that it's probably crazy

But I need you to call me your baby

Even if you have to fake it

[Chorus 2: ALMA]

Just tell me your sweet lies, sweet lies

And then look at my sad eyes, sad eyes

Let's pretend this one last time

Before we go and kill all the good vibes

Just tell me your sweet lies, sweet lies

And I'll play it all like I don't mind

Let's pretend this one last time

Before we go and kill all the good vibes[Bridge: ALMA]

Give me one last high

Give me one last night

And a kiss goodbye, would you?

Give me one last high
Give me one last night
And a kiss goodbye, would you?
Would you, would you?[Chorus 2: ALMA]
Just tell me your sweet lies, sweet lies
And then look at my sad eyes, sad eyes
Let's pretend this one last time
Before we go and kill all the good vibes
Just tell me your sweet lies, sweet lies
And I'll play it all like I don't mind
Let's pretend this one last time
Before we go and kill all the good vibes[Outro: ALMA]
Give me one last high
Give me one last night
And a kiss goodbye, would you?
Give me one last high
Give me one last night
And a kiss goodbye, would you?
Would you, would you?
Give me one last high
Give me one last night
And a kiss goodbye, would you?
Give me one last high
Give me one last night
And a kiss goodbye, would you?
