Necromantical Screams

Celtic Frost

Necromantical screams Only you are deaf Is there life beyond death? You entreated death, the answer will come Oebris of faith, even you are false Immortal morals, catch up with time Vault of darkness, filled with hate[Chorus] Deny life, addiction to death Procession of damnation, expulsion of light Hazardous ways into the rush Soul is frozen and flesh is weak Necromantical screams Only you are deaf Intelligence is mute ... Respect and thoughts, buried long ago Pleading for the end, blind and dumb We won't feel, there could be more I will remain alone in the dark... only you are deaf Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
