

# Welcome Me

## Indigo Girls

welcome me to your city of angels  
devil prophets still hold my hand  
i walked your stillborn streets for hours  
ethnic echoes spitting out their trials  
they tell me i'll be the first to praise the sun  
the first to praise the moon  
the first to hold the lone coyote  
the last to set it free  
welcome me to a haven given  
it's well received into my open arms  
oh i ran in my sleep through shaking tremors  
i felt the splitting earth echoing in my ears  
i feel it i'll be the first to praise the sun  
the first to praise the moon  
the first to hold the lone coyote  
the last to set it free  
welcome me to your city of angels  
there's a devil monkey laying on our backs  
now tell me where's the heart  
where's the bullet for breaking  
who's gonna give me a weapon  
a pacifying weapon  
i need it i'll be the first to praise the sun  
the first to praise the moon oh  
the first to hold the lone coyote  
the last to set it free  
i'll be the first to praise the sun  
i said i said welcome me  
the first to praise the moon oh  
the first to hold the lone coyote  
the last to set it free  
i said welcome me
