

Let Go

jj

All I've left is my soul
Fall left me with this winter so cold
Take me away
Like an overdose on heroin Baby, we were born for fun
Or maybe to sleep in the sun
A place where new waves come in
A place you'll be here Let go
Let the wind blow
Back your head tonight
Let's go
Let your friend know
That you're here on a beach by my side Called me today on the phone
The sun guided me home
I'll never be alone again
'cause I've got a friend
Let go
Let your skin show
That you've been in the sun today Let's go
Let your mind blow
All your sorrows away
