## Let Go

<u>jj</u>

All I've left is my soul Fall left me with this winter so cold Take me away Like an overdose on heroinBaby, we were born for fun Or maybe to sleep in the sun A place where new waves come in A place you'll be hereLet go Let the wind blow Back your head tonight Let's go Let your friend know That you're here on a beach by my sideCalled me today on the phone The sun guided me home I'll never be alone again 'cause I've got a friend Let go Let your skin show

That you've been in the sun todayLet's go
Let your mind blow
All your sorrows away
