Lavender Fields

Marlene

I remember when i met you Well we fell in love, we fell in love In the purple fields and sky blue Ah Ah AhWell the turtle doves were singing Well we fell in love, we fell in love You and me at the beginning Ah Ah AhOur beautiful lavender fields Where we could be together 'Cause i dream about lavender fields Well tell me, you remember. 'Cause the wind is getting colder Leaves are fall in off, fall in off And our love is getting older So dream about lavender fields But nothing is really fading Birds are taking off, taking off But you'll always find me waiting By beautiful lavender fieldsI remember when you kissed me I fell in love, i fell in love I'm right here but don't you miss me Ahhhhh Ah AhOur beautiful lavender fields Where we could be together 'Cause i dream about lavender fields Well tell me, you remember. 'Cause the wind is getting colder Leaves are fall in off, fall in off And our love is getting older So dream about lavender fields

But nothing is really fading
Birds are taking off, taking off
But your love was find me waiting
By beautiful lavender fieldsWhen the days are grey...(?)
How everything could be colorfull and vivid
So keep dreaming, dreaming of us babe

I keep dreamind, dreamind of us babe And you'll always find me waiting

Ohhhhh Oh

You'll always find me waiting
By our beautiful, by beautiful lavender fields'Cause the wind is getting colder
Leaves are fall in off, fall in off
And our love is getting older
So dream about lavender fields

But nothing is really fading
Birds are taking off, taking off
But your love was find me waiting
By beautiful lavender fields
