

# Bam

## Miranda Cosgrove

Never thought I'd fall in love  
Now I stand corrected  
Never thought I'd feel what I feel  
Never been so affected Now I know what I know  
But right now it seems so subjective  
Oh, oh You surprised me, hypnotized me  
Found my weakness, then you creeped in, bam  
Took my heart then, bam  
Oh, you started to make my whole world just explode Bam, my life has changed  
Bam, can't concentrate  
Bam, I was okay  
Until we met that day then  
Bam, I am obsessed  
Bam, can't get no rest  
Bam, ever since we met  
I think I know what love is, bam I felt so secure with these walls around me  
Boys would take me out  
But bring me back where they found me  
And there's no harm, no foul  
'Cause they never got a chance to know me, yeah You surprised me, hypnotized me  
Found my weakness, then you creeped in, bam  
Took my heart then bam  
Oh, you started to make my whole world just explode Bam, my life has changed  
Bam, can't concentrate  
Bam, I was okay  
Until we met that day then  
Bam, I am obsessed  
Bam, can't get no rest  
Bam, ever since we met  
I think I know what love is bam And if I had to walk a million miles  
To find your smile I would, you know I would, babe  
And if you took a trip to Costa Rica  
And told me I need ya I would, I would, I would  
Yeah, yeah, yeah Bam, my life has changed  
Bam, can't concentrate  
Bam, I was okay  
Until we met that day then Bam, I am obsessed  
Bam, can't get no rest  
Bam, ever since we met  
I think I know what love is bam You surprised me, hypnotized me  
Found my weakness, then you creeped in, bam  
Took my heart then bam

Oh, you started to make my whole world just explodeBam
