

# Trumpets

## Timmy Trumpet & Lady Bee

Come around, boy  
Come down  
You better get ready with the trumpet sound  
No matter where you from, which town  
You better get ready with the trumpet sound  
Come around, boy  
Come down  
You better get ready with the trumpet sound  
No matter where you from, which town  
You better get ready with the trumpet sound  
Better get ready You better get ready with the trumpet sound  
Come around, boy  
Come down  
You better get ready with the trumpet sound  
No matter where you from, which town  
You better get ready with the trumpet sound  
Come around, boy  
Come down  
You better get ready with the trumpet sound  
No matter where you from, which town  
You better get ready with the trumpet sound No matter where you  
No matter where you  
No matter where you  
No matter where you  
No matter where you  
No matter where you  
No matter where you...  
You better get ready with the trumpet  
You better get ready with the Come around, boy  
Come down  
You better get ready with the trumpet sound  
No matter where you from, which town  
You better get ready with the trumpet sound Come around, boy  
Come down  
You better get ready with the trumpet sound  
No matter where you from, which town  
You better get ready with the trumpet sound You better get ready with the trumpet sound
