

Bite the Bullet

Machine Head

I understand your every fear
Your every pain your every Tear
With every struggle you Conquer
Turn Heart to steel
And Will to Iron You Want more?
You'll get it
Determined, ferocious
Grit down and bite the Bullet
Dare to unbind
Smash and redefine
The hate you feel is nothing more
Than love you feel to win this War
This battle that rages inside you
With Bloodlust You must unchain your shackles You want more?
You'll get it
Determined, Ferocious
Grit Down and Bite the Bullet
Dare to unbind
Smash and redefine Lion Heart
never give in
Unsatisfy every weakness My Lion heart
will never give in
Unsatisfy my every weakness
You want more?
You'll get it
Determined, Ferocious
Grit down and bite the bullet
Dare to unbind
Smash and redefine
