

# Summer's Gone (NoMBe & Thutmose vs. Sonny Alven)

## NoMBe, Thutmose & Sonny Alven

Summer's gone, but you can be my winter loving  
Summer's gone, but you can be mine  
The world stops spinning when you open your eyes my darling  
What a beautiful soul  
You deserve your own island  
Summer's gone, but you can be mine  
The world stops spinning when you open your eyes my darling  
What a beautiful soul  
You deserve your own island  
So trust me  
I'll give you that  
Heartbeat  
Moving fast  
The only way I know is the only  
Way you're heading  
Come near me  
Don't fear me  
That's why I'm running, running just looking for ya  
All I wanted  
Was a morning  
With you honey  
You see I'm drowning  
Tryna make your love surround me  
Hoping you never look down on me  
Just waiting for the summer to end  
Summer's gone, but you can be my winter loving  
Summer's gone, but you can be mine  
The world stops spinning when you open your eyes my darling  
What a beautiful soul, you deserve your own island  
Won't you love me? I'll be  
The only one, gods speed  
Holy grail and I know if our time was up tomorrow  
I'd pull you near me, now that's real heat  
And spin you like a bottle baby spin you like serato  
Let me walk you through the golden age,  
Diamond days, purple haze  
And show you as the summer fades  
The difference between night and day  
And don't you worry about time and a place  
It's a matter of finding the present  
and livin and guessin the crescent  
Has risen for Oliver Twist in a matter of days  
Summer's gone, but you can be my winter loving  
Summer's gone, but you can be the angel that fell from the sky  
When I saw you at first  
And it wasn't a dream, and I knew it was you that I saw

When I saw what I saw and I conquer my fears  
And I'm running for joy  
And you begging for mercy and I'm begging for more  
Summer's gone, but you can be my winter  
loving  
Summer's gone, but you can be mine  
The world stops spinning when you open your eyes my darling  
What a beautiful soul, you deserve your own island  
Everything you want over everything you  
need  
Everything you want over everything you need  
Everything you want over everything you need  
Everything you want over everything you need
