

# I Love You Dwayne

## Lil Wayne

Lil Wayne, mama proud of you  
You done came so far. I can't wait for your album to come out  
A lot of people ask me when it's coming out.  
They can't wait for your album to come  
out.  
I'm just proud of you.  
You's my rock  
You's always been my rock  
Mama love you, I love you  
They gave me the best son, your little brother we never wanted for nothing  
I thank the lord everyday for keeping us on this earth  
And in good health  
I just pray things go well with you in life  
But I thank the lord,  
because I know you have been  
through a lot that I don't even know about  
Mama love you  
I love you Dwayne, with all my heart  
You is my life  
I live for you  
You make sure mama's taken care of  
I don't care if you don't have it  
you gonna make sure I get it anyway  
Even though you don't have it to give  
And my son Desimarti ain't wanted for nothing  
Anything someone call you for, you gon' get  
You gon' make sure he get it  
Your children never wanted for nothing  
You is a man, you're truly a man  
Mama love you, I can't wait til your album come out because  
everybody asking about it and I know it's gon' be a beautiful album
