

# Sledgehammer

## Fifth Harmony

If you could take my pulse right now  
It would feel just like a sledgehammer  
If you could feel my heart beat now  
It would hit you like a sledgehammer I don't admit it, I play it cool  
But every minute that I'm with you  
I feel the fever and I won't lie, I break a sweat  
My body's telling all the secrets I ain't told you yet Oh oh  
I struggle to contain  
Woah oh  
The love that's in my veins  
Oh oh  
And how it circulates  
Oh oh  
If you could take my pulse right now  
It would feel just like a sledgehammer  
If you could feel my heart beat now  
It would hit you like a sledgehammer  
You're taken over the beat of my body, you just don't let up, don't let up  
You're taken over the beat of my body but you lift me up, lift me up  
If you take my pulse right now  
It would feel just like a sledgehammer So close together, so far apart  
You're turning me on and my fire's waiting for your spark Oh oh  
I struggle to contain  
Woah oh  
The love that's in my veins  
Oh oh  
And how it circulates  
Oh oh  
If you could take my pulse right now  
It would feel just like a sledgehammer  
If you could feel my heart beat now  
It would hit you like a sledgehammer  
You're taken over the beat of my body, you just don't let up, don't let up  
You're taken over the beat of my body but you lift me up, lift me up  
If you take my pulse right now  
It would feel just like a sledgehammer The truth is out, no stopping now, I'm getting closer  
I've had enough, undress my love, I'm coming over  
(If you could take my pulse right now  
It would feel just like a sledgehammer, oh  
And if you could take my pulse right now  
It would feel just like a sledgehammer, hammer, hammer) If you could take my pulse right now  
It would feel just like a sledgehammer

If you could feel my heart beat now  
It would hit you like a sledgehammer  
You're taken over the beat of my body, you just don't let up, don't let up  
You're taken over the beat of my body but you lift me up, lift me up  
If you take my pulse right now  
It would feel just like a sledgehammer
