

Maps

Napoleon

Day by day I'm trying to be better myself for the best
Swim through dreams with me, we'll put our hearts to rest
Keep in mind that learning to love yourself takes time
We view our lives through rose tinted
eyes
Draw maps around the lives of those you love
So when you're lost they'll lead your heart back home
Stray from the eclipse covering the sun around your soul
Draw maps around the lives of those
you love
