

Shining Star

Bars and Melody

You're my shining star
I searched from near to far
And all day long you were,
right here my baby Yo the girls from every nation,
your loves not an award
it's a motivation,
we're miles apart,
it breaks my heart,
this love's a journey about the star,
in the night you shine so bright
darkness falls you give light
I feel you close but you're so far,
but baby girl you're like a star
when we speak, there's tears in my eyes,
when I'm lonely,
I look to the sky's,
like three men who were so wise,
but my love I see your eyes
They're miles away, yeah, so far
twinkle, twinkle my little star
I feel you near, but you're so far
Baby girl you're shining star
You're my shining star
I searched from near to far
And all day long you were
right here my baby
You're my superstar
and girl you own my heart
and when we're worlds apart
I'll be right here my baby oh oh way oh You're my shining star "Ti amo" my italian bambino
I fell in love with ya when I first see ya
Romain girls "Te iubesc"
you know princess you are the best
"Kocham cie" my polish queen
I really like girls who have never been seen,
"Eu te amo" I stay on my knees
for all my princesses if you're portuguese
You're killin' me south with all your words,
I'm going crazy
my vision's blurred,
to all my frenchies "J te'aime",
I love your voice

I wanna hear it again
I know you are in a land so far baby girl,
you're like a star
German girls "Ich liebe dich",
to be with you is my only wish
You're my shining star
I searched from near to far
and all day long you were
right here my baby
You're my superstar
and girl you own my heart
and when we're worlds apart
I'll be right there oh oh way oh you're my shining star There's no place in the world too far,
I'll always hold you here in my heart,
you're my light, girl,
you're my shining star You're my shining star
I searched from near to far
and all day long you were
right here my baby
(OHH)
You're my superstar
and girl you own my heart
and when we're worlds apart
I'll be right here my baby oh oh way oh you're my shining star shine a light, it'll be okay
oh You're my shining star shine a light, it'll be okay baby You're my shining star
