

Modern Time Inferno

Pegasus

To the basics of love and evil
Modern time and you cannot leave' em
Are my brains and thoughts illegal
Controlled by the golden eagle
Hands up for the crime of the century
I'm a part of the virtual memory
Cause you hear every word
I'm speaking
But you don't know what I dream
When I'm sleeping
Secrets used to be
For you and me
And I just don't want to let this go
Modern Time Inferno
Modern Time Inferno
There are things I'll never show
In this Modern Time Inferno
You can track me down and see
Every single part of me
But there's a place you'll never know
In this Modern Time Inferno
What is God without believers
What's the devil without deceivers
We'd rather break
Than let it break us
We'd rather change
Than let it change us
Secrets used to be
For you and me
And I just don't want to let this go
Modern Time Inferno
Modern Time Inferno
There are things I'll never show
In this Modern Time Inferno
You can track me down and see
Every single part of me
But there's a place you'll never know
In this Modern Time Inferno
