Time Won't Wait

Jamiroquai

Hey, time won't wait for you Keeps on ticking away Burning up every dayOoh, time won't wait for you Keeps on ticking away Burning up every day She was sleeping at the bus stop Ebbing away But her magic in her blue eyes Told me she had left a her daze (Left a daze) So I have to check her wisdom And there was no doubt I told her I was sitting alone and on the crestfall Future's gonna catch me out She said, "Time won't wait for you So do all the things you wanted to Better hurry up, take it in your stride Use your resolution which you've been supplied" "And love won't change you, boy, it's trueI can tell you till my face is blue Every second screams, listen to your dreams Ooh, 'cause you just can't stop the clock" On a brick wall I was banging over my head But the sweet rings on my feet now Where once they were made of lead (Sweet rings on my feet now) Do you hear the message in the music, I hear it too You know, you got your history in the making Slowing down won't get you through, no, no Time won't wait for you So do all the things you wanted to Better hurry up, take it in your stride Use your resolution which you've been supplied And love won't change you, boy, it's true I can tell you till my face is blue Every second screams, listen to your dreams 'Cause you just can't stop the clock Time won't wait for youKeeps on ticking away Burning up every day Time won't wait for you Keeps on ticking away

> Burning up every day It keeps on(It keeps on)

You know that it keeps on You know that it keeps on (It keeps on) It keeps on ticking, yeah It keeps on

(It keeps on

You know that it keeps on You know it keeps on

Keeps on ticking, baby

Time won't wait for you

So do all the things you wanted to

You better hurry up hey take it in your stride

Use your resolution which you've been supplied

Love won't change you, boy, it's true

I can tell you till my face is blue

Every second screams, listen to your dreams

Oh, 'cause you just can't stop the clockYou know that it keeps on ticking away

Keeps on ticking away

(Time won't wait for you)

Time it keeps on ticking away

Keeps on ticking away

Time won't wait for you

Won't wait for you

Oh, won't wait for you, no

Can't stop
