

# Loved You First

## One Direction

Girl it should be me, driving to your house  
Knocking on the door, kissing you on the mouth  
Holding on your hand, dancing in the dark Cause I was the only one who loved from the Start  
But now when I see you with him  
It tears my world apart I've been waiting, all this time, to finally say it  
But now I see your hearts been taken And nothing could be worse, baby I loved you first  
Had my chances, could've been where he is  
Standing, that's what hurts the most  
Girl I came so close, but now you'll never know  
Baby I loved you first  
Girl it should be me, calling on your phone  
Saying you're the one, and that I'll never let you go I never understood, what love was really like  
But I felt it for the first time looking in your eyes  
But now when I see you with him My whole world falls apart  
I've been waiting, all this time, to finally say it  
But now I see your hearts been taken And nothing could be worse, baby I loved you first  
Had my chances, could've been where he is Standing, that's what hurts the most Girl I came so  
close, but now you'll never know  
Baby I loved you first  
First touch, first kiss  
First girl to make me feel like this  
Heart break, it's killing me  
I loved you first why can't you see  
I've been waiting, all this time, to finally say it  
But now I see your hearts been taken  
And nothing could be worse  
Baby I loved you first  
Had my chances, could've been where he is  
Standing, that's what hurts the most  
Girl I came so close, but now you'll never know  
Baby I loved you first  
Baby I loved you first  
Baby I loved you first  
Baby I loved you first
