## **Daffodils (feat. Kevin Parker)**

## **Mark Ronson**

Run your fingers down the cool Underbelly of the blue evening Crank that vapor-wagon Start that kick dragon beating

Step out on the patio

Follow where your daddy-o's leadingWrestle with our shadow twins Hold'em till they're glowin' in warning

Hit that bubble kit now

Laughin' as you breathe out, easy

Drop another daffodil

We can push on through till morning

Drop another daffodil sail off the map until morningBaby just say no to sleep

Bodies got to keep exploring

Sweet volcano violence

Vast new continents spawning

Drop another daffodil

We can push on through till morningDrop another daffodil sail right off the map until morning

Put another record on

Maybe Chaka Khan or Rocky

Catch on fire above the

Green empire of the kraken

Flow with the isosceles

To the beat of six knees knockingDrop another daffodil we can push on through till morning Drop another daffodil sail right off the map until morning
