

Beer Can in a Truck Bed

Old Dominion

She was diggin' up her sundress, showing off her tatty
She said, "I like your ride, maybe you could be my caddy
What you say you pick us up a six-pack of Natty"
Aww niceShe had a sweet little southern twang
Said, "We don't have to talk about forever things
For tonight maybe we could just hang like a pair of dice"Said, whatever girl, you know I'm
down
I was thinkin' we could crash this townLike a beer can in a truck bed
On a slow ride in the sunset
Bouncin' down a small town street
Let's pop the top right off this thing
I need a cold drink cause you're a hot mess
Let the night do what it does best
Shake me up and baby turn me loose
I just wanna roll around with you
Like a beer can in a truck bed
I said, girl you got your shades on, looking like you're famous
We could turn this little one horse into Vegas
Holdin' you is like I'm holdin' all the aces
I can't loseShe said, "Come on, boy, pour it on"
She didn't know that I was already goneLike a beer can in a truck bed
On a slow ride in the sunset
Bouncin' down a small town street
Let's pop the top right off this thing
I need a cold drink cause you're a hot mess
Let the night do what it does best
Shake me up and baby turn me loose
I just wanna roll around with you
Like a beer can in a truck bedSaid, whatever girl, you know I'm down
I was thinkin' we could crash this town
Like a beer can in a truck bed
On a slow ride in the sunset
Bouncin' down a small town street
Let's pop the top right off this thing
I need a cold drink cause you're a hot mess
Let the night do what it does best
Shake me up and baby turn me loose
I just wanna roll around with you
Like a beer can in a truck bedI just wanna roll around with you
Like a beer can in a truck bedI just wanna roll around with you
Hey babe, I just wanna get down with you
Hey babe, I just wanna roll around with you

Hey babe, I just wanna get down with you
Hey babe, I just wanna roll around with you
Like a beer can in a truck bed
