

# We Are Not Good People

## Bloc Party

Think fast boy, think on your feet  
If you don't know it now you never will  
You're so young to be so heavy  
Rip off the seal and let me school you You see angels melt when they touch the ground (We've  
got the doorway)  
You see you're not dumb, you're just not aligned(We've got the hallway)  
Because you could be the one percent(You can't restore yourself)  
If you wanna We're not good people  
We're not good people, no  
We're not good people, no  
We're not good people, no  
This is a warning  
If God is God then why is he secret?  
Today's the day you've been set free  
They might claim the best things are hidden  
But I was here, you came to me With these five lines you will be reborn(We've got the doorway)  
A superman or maybe a jock(We've got the hallway)  
You can crush the whole world in your hand(You can't restore yourself)  
If you wanna We're not good people  
We're not good people, no  
We're not good people, no  
We're not good people, no  
This is a warning You see angels melt when they touch the ground (We've got the doorway)  
You see you're not dumb, you're just not aligned(We've got the hallway)  
Because you could be the one percent(You can't restore yourself)  
If you wanna  
We're not good people  
We're not good people, no  
We're not good people, no  
We're not good people, no  
This is a warning
