

# This Must Be My Dream

## The 1975

I personify the 'adolescent on a phone'  
speaking like I'm bigger than my body  
I personify that lack of freedom in your life  
And I'm sure she'll be gone in a second  
Let me tell you about this girl  
I thought she'd rearrange my world  
Takes a particular type of girl  
To put my heart under arrest  
So why is this feeling on my chest?  
(This must be my dream)  
Wide awake before I found you  
(This must be my dream)  
I can't wait for you, boy  
(Wake me from my dream)  
What does all our love amount to?  
(This must be my dream)  
We can't make love when you fly around me, baby  
Pipe down you're no lover  
It's failing 'cos you want it to  
Well I thought it was love  
But I guess I must be dreaming  
'Bout feeling something instead of you  
What did I tell you about this girl?  
The 'one to rearrange your world'  
You got excited  
And now you find out that your 'girl'  
Won't even get you undressed  
Or care about your beating chest  
(This must be my dream)  
Wide awake before I found you  
(This must be my dream)  
I can't wait for you, boy  
(Wake me from my dream)  
What does all our love amount to?  
(This must be my dream)  
We can't make love when you fly around me, baby  
(This must be my dream)  
Wide awake before I found you  
(This must be my dream)  
I can't wait for you, boy  
(Wake me from my dream)  
What does all our love amount to?  
(This must be my dream)  
We can't make love when you fly around me, baby  
(This must be my dream)  
Wide awake before I found you  
(This must be my dream)

I can't wait for you, boy  
(Wake me from my dream)  
What does all our love amount to?  
(This must be my dream)  
We can't make love when you fly around me, baby  
(This must be my dream)  
Wide awake before I found you  
(This must be my dream)  
I can't wait for you, boy  
(Wake me from my dream)  
What does all our love amount to?  
(This must be my dream)  
We can't make love when you fly around me, baby
