

Kurt Cobain

Paul Alone & Lazaro

It's been a long long time
You were gonna stay here, forever
You're like a tequila with no lime
I still kinda like you, whatever
You packed your shoes
And started walking
Till you found a path
That took you the north way
Oh lets
Make some noise
Like Kurt
Would like us to do
How bad could it be
How dark would it be
How hard may it be
How weird may you feel
It's been a long climb
She was gonna love you forever
How bad can love be
To take your own hell out
We'll meet in hell
We'll use the same needle
When everything seems to hurt
When every "she" seems a bad one
Oh lets
Make some noise
Like Kurt
Would like us to do
It's been a long long time
You were gonna stay here, forever
It's been a long long time
You will always be here, forever
