

Constellation Prize

[Robin Bengtsson](#)

Listen

I should have told you long ago That you glisten
oh more than he will ever know If he can't see what I have always seen
then something isn't right He hasn't seen at all
that you are beautiful I'm breaking down the wall
you're a star But now I'm about to fall
because you are
cause you are
beautiful beautiful babe
I'll take you higher
than a star could ever go Let's make fire
oh now your heart begins to glow Maybe I'm just dreaming
that you let me be your
constellation prize He hasn't seen at all
that you are beautiful I'm breaking down the wall
you're a star But now I'm about to fall
because you are
cause you are
beautiful beautiful babe He hasn't seen at all
that you are beautiful
I'm breaking down the wall
you're a star But now I'm about to fall
because you are
cause you are
beautiful beautiful babe ooooh
Hey your constellation prize
Aaa yeah
constellation prize
He hasn't seen at all
you are beautiful
Hey
heeeeeey
Cause you are
cause you are
beautiful beautiful yeah
Cause you are
you are
cause you are
beautiful beautiful
