

A Friend Like You

Dolly Parton

A friend like you is a friend indeed
A friend like you is all I need
I like hanging out with you and spending time
Sharing secrets having fun I like you best of anyone
Our friends are cool, like you is really hard to find A friend like you, a friend like you
Our friends are cool, a friend like you I like that we can hide a way, discover things that's fun to
play
Or we can be so real and still pretend
And read different yet to say, different rocks and different names
And is the just the coolest thing that we are best friends
A friend like you is a friend indeed
A friend like you is all I need
I like hanging out with you and spending time
Sharing secrets having fun I like you best of anyone
Our friends are cool, like you is really hard to find A friend like you, a friend like you
Our friends are cool, a friend like you Everybody
A friend like you, a friend like you
Our friends are cool, a friend like you Our friends are cool, a friend like you
You're cool
