

# Connection (feat. Hatsune Miku)

livetune

Raise your hands up, my friend  
Feel the heart beat within  
Time is now, we can make the change  
Let music begin I can see you smiling  
Everyone is dancing  
We're connecting even more  
Like we've never been before Clap your hands now, my friend  
Feel your powers within  
Time is now, this moment  
Is a once in a life time Now I see you dancing  
Everyone is singing  
We're connecting even more  
Like we've never been before  
Oh, can you hear me singing for you?  
So please won't you come out and see what's going on  
The world is shifting to something brand new  
Something better,  
Something that's more exciting and fun  
For your and for me Take your hopes up, my friend  
Trust your powers within  
See the colours of the music  
Singing out from your heart I can see you trying  
Everyone's been dreaming  
To be connected even more  
Like we've never been before Don't you give up, my friend  
Time can be hard sometimes  
Just hang on to your dream  
And let music take control  
I can see you singing  
Everyone is dancing  
We're connected even more  
Like we've never been before Oh, can you feel me reaching for you  
You have the power to make the change for whatever you wish  
The world is ready for something brand new  
Together, we can  
Make our new songs exciting and fun  
For all around the world Raise your hands up, my friend  
Feel the heart beat within  
Time is now, we can make the change  
Let music begin I can see you smiling  
Everyone is dancing  
We're connecting even more

Like we've never been before  
Clap your hands now, my friend  
Feel your powers within  
Time is now, this moment  
Is a once in a life time  
Now I see you dancing  
Everyone is singing  
We're connecting even more  
Like we've never been before
