

The Legacy

Black Veil Brides

Racing faster, escape disaster
Partners in crime will leave their mark
We make our own way, no thoughts of yesterday
Black hearts of chrome and battle scars
Woah, oh, oh, the legacy born from a dream
On leather wings rose from the streets
With the hand on destiny
We came from nothing but promise one thing
We'll change the world with these guitars
So listen closely and don't stop working
No one can tell you who you are
Woah, oh, oh, the legacy born from a dream
On leather wings rose from the streets
With the hand on destiny
The legacy born from a dream
On leather wings rose from the streets
With the hand on destiny
Go, run, run, never look back
Run, run, never look back
Run, run, run, never look back, run
The legacy born from a dream
On leather wings rose from the streets
With the hands on destiny
The legacy born from a dream
On leather wings rose from the streets
With the hand on destiny
