

# If You Love Me (feat. Van Morrison)

**B.B. King**

If you love me  
You will give your heart  
Why should be apart  
If you love me And you love me  
Baby you will know the truth  
I wasn't born to lose, no, no  
And I love you Affinity and communication  
That makes reality  
Understanding is the first thing  
It means so much to me  
If I love you  
I will find the key  
If it's meant to be  
Because, 'cause I love you  
Alright Affinity and communication  
That makes, that makes  
That makes reality, no  
Understanding is the first thing  
It means so very much to me  
Yeah, if I love you, baby  
I will find the key  
And if it's meant to be  
Yes it is, and I love you  
Yes I do And I'll understand you
