

Show Love

Jah Cure

I did something for you girl
I did give you my world
Happy birthday to you
Let me love you and squeeze you
Feel you, show love
Than anyone ever showed love
In your life
Uh yeah
If you let me underneath your skin
I could show you all my love again
Make a little room in your heart for me
And I'll move right to
Let me live your love for you
Tell you all you need to hear
Let my voice serenade your soul
And take away your fear
Let me take away your fears
Take away your fears, girl
So precious, way more than valuable
Let me love you and squeeze you
Feel you, show love
Than anyone ever showed love
In your life
Uh yeah
I can feel a home in your mind
Then you can let your spirit unwind
I can take my time and do it slow
Till you're mentally inclined
There's so much in line to see
Beyond your reality
Everything and body's your new form
Find it here with me
Oh baby, baby
You're so precious, way more than valuable
Let me love you and squeeze you
Feel you, show love
Than anyone ever showed love
In your life
Uh yeah
