

Waves

Electric Guest

I know I, I won't make it
Don't know what to do
They say that love is easy
But they must've forgot you
Oh she's talking things so full of glee
But twenty-one months will not agree
A second hand girl, I guarantee
Will make a life harder for you and me
I love to hate yah
'Cause you know I don't
But treat me like you do
I think it's time for you to go
And always such a pretty thing
Depending on
What the days will bring
I can't escape love
Dah do dah do
A la la la lo yeah
Oh my mind, is all washed away
All away
We keep holdin' on
To the everlasting waves
They say it's never easy when you're twenty three
Maybe that's a lie
And It's just hard as fuck for me
Oh and I know someone to ripples day
I couldn't explain my lovin' way
I waited round all day duh dah dee
Waiting on you to make me free
And the smile it just
Floats away
As is the world is satisfied when night turns into day
It's a never-ending up and down
Another hot shot when you're around
I'm sick of the thing that took her down
I paint a new face with just a frown
Oh my mind is all washed away
All away
We keep holdin' on
To the everlasting waves
Oh lovely, with you
Oh I can't keep from falling in love
I can't keep from falling in love
Oh love me
