

# Wish Me Luck

## Chuck Prophet

My life is an experiment that doesn't prove a thing  
I wake up every morning wondering what the day will bring  
Then I throw open the windows  
I fill up both my lungs  
And I shout "Look out all you losers here I come"  
So wish me luck  
Even if you don't mean it  
Wish me luck  
If it's not too much to ask  
Wish me luck  
It's not like I really need it  
It just feels so good to hear it anyway  
Now I've harvested your cannabis  
Down the Yucatan  
In fact I slept beside a Catholic priest one time  
In Henry Rollins' band  
I've marched in your parades  
And I've fought your late night wars  
But in my father's house there are no doors  
So wish me luck  
Even though I don't need it  
Wish me luck  
If it's not too much to ask  
Wish me luck  
It's not like I really need it  
It just feels so good to hear it anyway  
Now watch me dance upon a wire  
Watch me dangle from a string  
Shining like a diamond in the sun  
Shining like a diamond  
Shining like a diamond  
Shining like a diamond in the sun  
Wish me luck  
Even if you don't mean it  
Wish me luck  
If it's not too much to ask  
Wish me luck  
It's not like I really need it  
It just feels so good to hear it anyway  
Come on now  
How hard can it be?  
Wish me luck

You can do it  
Come on now
