

# Know Me Better

Mabel

Get close ma, know me better  
Let's go late on tea and let's get lost in time  
Your still head next to mine, there's nothing left to hide  
Let's talk all night until the sunlight turns up  
I could go all day, wearing nothing but your kiss  
I could go all day, wearing nothing but your kiss  
Take it off, tell me everything  
Now there's nothing in between us  
No nothing in between us  
Take it off, I'll offer you everything  
There's so much more to love about you  
More to love about you  
Get close ma, know me better  
Doesn't matter what you wear now  
That I've seen you like this  
I thought I knew you but there's something I missed  
You can hold me closer, feel the warmth of my skin  
I could go all day, wearing nothing but your kiss  
I could go all day, wearing nothing but your kiss  
Take it off, tell me everything  
Now there's nothing in between us  
No nothing in between us  
Take it off, I'll offer you everything  
There's so much more to love about you  
More to love about you  
We got back to sleep around 20 to 10  
We wasted the morning but I'd do it again  
We got back to sleep around 20 to 10  
We wasted the morning but I'd do it again  
Take it off, tell me everything  
Now there's nothing in between us  
No nothing in between us  
Take it off, I'll offer you everything
