## All Over the World (Cahill Radio Edit)

## Ola

Now, why you move so damn slow pick it up You gotta let it go

So are you in or out, now what's you game

You gotta let me know'Cause time is running out in here

And life starts wearing me outJust follow me all over the worldI wanna make this tonight

Let's do this alright

Next flight is your flight

You got it girl, rightCan't stop this, tonight

Don't be so uptight

Chorus: I want you to

Follow me all over the world

And you won't even notice what hit you babe

Just follow me all over the world

And life will never treat you the same again

'Cause I jump like this, will mess you up

But I can't do less then this

Just follow me all over the world

And life won't treat you so badYou gotta let those fat beats move you feet Baby just count on meJust let your head go insane, lose your name

Be what you're made to be'Cause time is running out in here

And life starts wearing me out

And I would take you anywhere

You got one second to go

Chorus: I want you to

Follow me all over the world

And you won't even notice what hit you babe

Just follow me all over the world

And life will never treat you the same again

'Cause I jump like this, will mess you up

But I can't do less then this

Just follow me all over the world

And life won't treat you so badJust follow me all over the world, the world, the world, the world, the worldYou don't know me yet but I don't care

You don't know me yet but I don't care

I wanna make this tonight

Let's do this alright

Next flight is your flight

You got it girl, rightCan't stop this, tonight

Don't be so uptightChorus: I want you to

Follow me all over the world

And you won't even notice what hit you babe

Follow me all over the world

And life will never treat you the same againFollow me all over the world
And you won't even notice what hit you babe
Follow me all over the world
And life will never treat you the same again'Cause I jump like this, will mess you up
But I can't do less then this
Just follow me all over the world
And life won't treat you so bad
