

# Complications

## I Can Make a Mess Like Nobody's Business

All I know is it's hard for me  
Can't tell what's left and right this time-ime  
And I don't know where directions lead  
then move from side to side while blindedIt's the life that I lead inside my head  
that's killing me again  
That kid living life in the moment then  
is drowning in regretMy heart's been through some complications  
It's usually alright but  
I don't see a sign of life  
My mind's held up on conversation  
and I don't know if it's right but  
I bite my tongue and try to be nice  
The doctors say there's still good in me  
But I can't wait around inside here  
And still we search for our meaning  
We're just not meant to find right now ohIt's the life that I lead inside my head  
that's killing me again  
That kid living life in the moment then  
is drowning in regretMy heart's been through some complications  
It's usually alright but  
I don't see a sign of life  
My mind's held up on conversation  
we never should have had  
I bite my tongue and try to be niceI used to think I say some things with meaning to the world  
But you will say I lost my voice, my passion, my desire  
The world has changed up its mind  
The world has changed up its mind (mind)My heart's been through some complications  
My heart's been through some complications  
My heart's been through some complicationsMy heart's been through some complications  
My mind's held up on conversation  
I am usually alright  
so I bite my tongue and try to be nice
