

Music to My Eyes

Lady Gaga & Bradley Cooper

You're music to my eyes
I've had to listen just to find you
I'd like for you to let me sing along
Give you a rhythm you'd feel I wanna learn your every line
I wanna fill your empty spaces
I want to play the part to reach your arms
Sing you a song that you feel, oh Love, let your music be mine
Sing what I harmonize
Let your melodies fly in my direction
Take me to your paradise
On a musical ride
I'm in love with your music, baby
You're music to my eyes
Your voice is quite a view
I heard a song and then I saw you
I learned the lyrics and knew you were mine
Dance the horizon with you I wanna sing you us a sunrise
And be the doorknob that will move you
I'd like to be the strings on your guitar
Touch me and play what you feel
Love, let your music be mine
Sing what I harmonize
Let your melodies fly in my direction
Take me to your paradise
On a musical ride
I'm in love with your music, baby
You're music to my eyes
