

Breathe

Astrid S

I forget to
It's been a week since you hit my bed
And since then you've started living in my head (eh)
Seven days and I'm nearly dead
Never thought that I'd reboot, but you're a different kind of new
It's like I feel everything more
(I forget to)
All my body knows it when you reach my floor (eh)
My heart is beating down the door
Now I'm stocking up on oxygen 'Cause when I see you
I forget to breathe-eathe-eathe
I forget to breathe-eathe-eathe
I forget to breathe-eathe-eathe
I forget to, when I'm with you
(I forget to)
If I could just inhale some chill
It's like I'm living out in space
How am I still here?
Did you slip me a magic pill?
Got me lifted like an astronaut
No helmet on and my lungs just stop
So please, when you look at me like that (like that)
There's no way to fight back (fight back), no
Please, can't you see I'm stocking up on oxygen 'Cause when I see you
I forget to breathe-eathe-eathe
I forget to breathe-eathe-eathe
I forget to breathe-eathe-eathe
I forget to, when I'm with you
When I see you
I forget to breathe-eathe-eathe (I forget to)
I forget to breathe-eathe-eathe (I forget to)
I forget to breathe-eathe-eathe (I forget to)
I forget to, when I'm with you
I don't know how to live without the breath you finish
I don't know how to live without the breath you finish
I don't know how to live without the breath you finish
I don't know how to live without the breath you finish
I forget to breathe-eathe-eathe
I forget to breathe-eathe-eathe
I forget to, when I'm with you
I forget to breathe-eathe-eathe
I forget to breathe-eathe-eathe
I forget to breathe-eathe-eathe
I forget to, when I'm with you
I forget to breathe-eathe-eathe (I forget to)

I forget to breathe-eathe-eathe (I forget to)
I forget to breathe-eathe-eathe
I forget to, when I'm with you
(I forget to)
