

No Competition (feat. Yazz & Serayah)

Empire Cast

Everybody wants to shine,
but they can keep on wishing,
cause ain't no stars made over night
and there ain't no competition our way

petition, our way

petition, our way

ain't no competition our way

petition, our way

petition, our way

I don't see no, competition

Uh where they at, where they at

I don't see no one

Ray charles, I'm stevie wonder

with the block bold arms

getting darker than the bitch out here

hard as hell to get a bitch out here

throwing money like I'm rich out here

drinking liquor like a bitch out here

mamma I wanna be famous

let em all know what my name is

I gotta make some arrangements

money come go when it changes

this'll be wearing the ladies

I pray everything like a christian

mamma and daddy and all of my family

I don't see no competition

Everybody wants to shine,

but they can keep on wishing,

cause ain't no stars made over night

and there ain't no competition our way

petition, our way

petition, our way

ain't no competition our way

petition, our way

petition, our way

I don't see no, competition

Where they at, where they at

I don't see nada

Hit like a house??

I don't see nothing but dollars

dont say harder than the cheque out here,

hard as hell to get respect out here,

I just wanna be the next out here,
they wanting me to flex out here,
mamma I just wanna make it,
make all the girlies get naked
make em do drop on the dance floor,
pocket silver in my pants flow,
this will be?? the ladies
I pray everything like a christian,
mamma and daddy and all of my family,
I don't see no competition, no,
It's a rumble in the jungle, underneath the stars
but we ain't going nowhere till we win the war,
I'm fighting but my back is up against the wall
the bigger that they are, the harder that they fall
We gotta keep moving, keep moving,
it's so hard to carry on
but I'mma just building, just building,
just building, a champion
Where they at, where they at
I don't see no one
Where they at, where they at
I don't see no one
Where they at, where they at
I don't see no one
Where they at, where they at
I don't see no one
Where they at, where they at
I don't see no one
Where they at, where they at
I don't see no one
Where they at, where they at
I don't see no one
Where they at, where they at
I don't see no one
Where they at, where they at
I don't see no one
Everybody wants to shine,
but they can keep on wishing,
cause ain't no stars made over night
and there ain't no competition our way
petition, our way
petition, our way
ain't no competition our way
petition, our way
petition, our way
I don't see no, competition
Everybody wants to shine
Everybody wants to shine
Everybody wants to shine
Everybody wants to shine
