Can't Explain It

LL Cool J

I can't explain it You know it's that moment It's just that moment Y' know wa' I'm sayin? I can't explain itCan't explain it My love, when we're together You're the greatest, nobody does it better When you hold me I wish that I could be your one and only Nobody does it better I understand you want canaries on your hand Masterpiece roley, gold tri color band Cute wedding pictures sittin' on the nightstand You don't wanna make it happen unless it's the right man I know you won't touch me unless you trust me You kiss me and hug me but still won't crush me I'm kissin' on your neck real tender Gentle as can be but you still won't surrender Let me kiss your eyes Let the smell of the incense enhance the vibe I pull back to stare at your eyes Sittin' there quiet like I'm hypnotized We kiss a little more, laugh and smile Might even share a lollipop, you know my style Kick your Charles Davids off, relax for a while Let's pretend that we're walkin' down the aisle I can't explain it Can't explain it My love when we're together You're the greatest, nobody does it better When you hold me I wish that I could be your one and only Nobody does it betterStraight up, you beautiful B I don't think you understand what you doin' to me On the couch witch legs crossed, watchin' TV Shoe hangin off the tip of your foot, you killin' me Then we kiss for real, I'm fully prepared, I'm already steel You go to the bathroom for a second I understand baby, I know what you checkin' That's when you come back and walk to me slow That's when you change up and let it all flow I'm kissin' on your belly ring nice and slow I love to take my time, love to give you a show

Get the warm chocolate syrup to travel below Use my ears like handlebars, take control Ain't no sense in stayin' calm and playin' the role Baby relax, let me touch your soul I can't explain itCan't explain it My love when we're together You're the greatest, nobody does it better When you hold me I wish that I could be your one and only Nobody does it betterMy turn to get rocked, lifted out my socks With sound effects and what not A little perfume above the right spot, just a touch Never too much, I lick it like a Dutch Two of my favorite numbers, you know what I mean Add 'em up and they equal fifteen You the six, I needed you like a fix I can see it my mind, I knew we was gon' click I pick up the pace You feel the stubble from my beard on your face I look at your lips and take a taste Switch it up I got my hands on your waist We whylin' out, we all over the place I'm holdin' on with a strong embrace You holdin' on and tryin' to keep the faith Together we blast to outer space I can't explain itCan't explain it My love when we're together You're the greatest, nobody does it better When you hold me I wish that I could be your one and only Nobody does it better
