

# Disappear (feat. Jay Sean)

Christian Rich

You say that something's missing  
Tell me everything that's on your mind  
I wanna listen, we can talk it over  
Cause I know you got your questions  
I been unavailable and you need more affection from me, me I know from this far away,  
memories fade and feelings change  
It's hard keeping us the same, we don't gotta be afraid Cause when we're together, yeah  
Just me and my girl here, yeah  
Cause when we're together, yeah  
The world disappears  
Cause when we're together  
I ain't one for cheating, I'll be out so frequently  
I might have fooled around for sure, oh  
Ain't no rhyme or reason, you're all that I believe in  
I would be a fool to let you go I know from this far away, memories fade and feelings change  
It's hard keeping us the same, we don't gotta be afraid Cause when we're together, yeah  
Just me and my girl here, yeah  
Cause when we're together, yeah  
The world disappears  
Cause when we're together  
Cause when we're together, yeah  
Just me and my girl here, yeah  
Cause when we're together, yeah  
The world disappears  
Cause when we're together
