

Lean Into It

Little Big Town

These days are filled with trouble
And the nights feel like they're all getting longer
These days are dark and gray
Like that storm rolling in across the water There's a strong wind blowing
I push on, it pushes back
It's a hard time but I know I'll get through it
Just gotta lean into it This ain't where I thought I'd be
If I could I'd stop it now and I'd rewind it
But this ain't where I'm gonna fall
If there's a way to fight I know I'm gonna find it
There's a strong wind blowing
I push on, it pushes back
It's a hard time but I know I'll get through it
Just gotta lean into it I keep going even though
There's a strong wind blowing
I push on, it pushes back
It's a hard time but I know I'll get through it
Yes, I will, just gotta lean into it
Just gotta lean into it
