Still In Love With You

Thin Lizzy

Think I'll just fall to pieces If I don't find something else to do This sadness never ceases I'm still in love with youMy head, it keeps on reeling It's got me in a crazy spin Darling, darling, darling Is this the end? Still in love with you They say time has a way of healing Dries all the tears from your eyes But darling it's this empty feeling My heart can't disguise After all that we've been through I try my best but it's no use I guess I'll keep on loving you Is this the end? Now that it's all over, woman There's something I think you should know Baby, baby, think it over Just one more time before you goCall on me baby If there's anything I can do for you Call on me baby Help me see it throughI'm still in love with youBBC Version: by now you must be lonely you've been busted once again you haven't got a penny and you're feeling at the end just call on me baby if there's anything i can do for you just call on me baby i'm going to help you see it through i'm still in love with youthe sunny days have drifted and it's getting oh so cold

your spirit can't be lifted and your body starts to foldso don't you just sit there crying 'cause soon you're going to mend things won't be so bad now baby once you know that there's a friend
